

AAUW

AAUW has a rich history of working for the advancement and well-being of all women and girls. Tech Trek is just one of our varied programs.

Any person holding an associate or equivalent degree, or higher from a qualified educational institution is eligible for AAUW membership. University or college undergraduate students can become affiliates.

Founded in 1881 by 17 university alumnae, the organization has grown to represent more than 100,000 college graduates across the United States.

www.aauw.org

AAUW California was formed in 1886 and currently has more than 14,000 members, 150 branches, and 6,000 members-at-large. www.aauw-ca.org

AAUW Fund helps to advance education, research, and self-development for women and to foster equity and positive societal change. The Fund also provides financial and other support systems to women in academia seeking judicial redress for sex discrimination.

AAUW advances gender equity for women and girls through research, education and advocacy.

The AAUW National Tech Trek Program seeks to create a learning environment that fosters and promotes a culture of respect across identities. We welcome and value intersections of identity, including gender expression and identity, race, economic status, sex, sexuality, ethnicity, national origin, first language, religion, and ability.

Please note: Placement of transgender youth is handled on a case-by-case basis, with the welfare and best interests of the child a top priority. That said, if the child is recognized by the family and school/community as a girl and lives culturally as a girl, then AAUW is an organization that can serve her in a setting that is both emotionally and physically safe, as we do for all our girls.

Supplemental funding for Tech Trek is provided by grants from various entities such as Arconic, Symantec, AT&T, The James and Rebecca Morgan Family Foundation, and the John and Marcia Goldman Foundation, as well as many individuals looking to make a difference.

CREATES INSPIRATION EXCITEMENT CONFIDENCE

IN YOUNG WOMEN ABOUT TO ENTER EIGHTH GRADE

Tech Trek is a week-long academic residential camp featuring **hands-on activities in science, technology, engineering and math (STEM)**. Instructors include credentialed middle and high school teachers and professional women in STEM related careers. All camps are **located on a university or college campus** where campers are immersed in the full campus experience.

At each camp, girls receive an in-depth, week-long course focused on a STEM subject; at others, each girl is also provided with a selection of rotating labs designed to explore individual specialties more deeply.

Field trips & workshops encourage maximum interaction and learning.

An important part of the camp is the university campus experience. Campers have the opportunity to **live the life of a college student** for the week. They will live in the dorm, have a roommate (a fellow camper) they've never met, share communal bathrooms, eat in the dining commons, and explore the campus area under the careful supervision of camp staff. They also interact with women who serve as role models, introducing them to a wide range of STEM academic & career possibilities.

LOCATIONS

In existence since 1998, AAUW's Tech Trek camps are held at **Stanford, Sonoma State, U.C. Davis, California State University Fresno, U.C. Santa Barbara, U.C. Irvine, U.C. San Diego** and **Whittier College**. Each camp offers a slightly different curriculum, depending on area resources.

See us at <http://www.aauw.org/what-wedo/stem-education/tech-trek/>

FACULTY AND STAFF

Excellent, experienced teachers are selected to teach at each camp. Their qualifications include superior knowledge of their subjects and a high degree of interest in working with middle school girls.

AAUW adult volunteers act as Dorm Moms. Each camper is assigned to a small "family" group with the same Dorm Mom for the entire week. In addition, volunteer high school and college girls (former campers) provide assistance to teachers and other staff, which includes a medical professional.

FEES

Girls are recommended by their 7th grade science, math, or computer teachers and compete for sponsorships provided by their local AAUW branch.

The branches coordinate camper selection and fund the sponsorships that cover all room, board, and educational materials. Each camper and/or her family is responsible for a small fee which is due upon the camper's selection.

Local Branch: **Orinda-Moraga-Lafayette**
